

The EVALuator

An integrated software program that determines the battery life of your EVA Powered Air-Purifying Respirator.

The Bullard EVALuator software, when used with the EVASMC2 Genius Charger, gives you access to valuable information about your EVA Powered Air-Purifying Respirator battery. Simply load the EVALuator CD-ROM onto your desktop computer via the data cable, and the software automatically provides you with everything you need to know about your battery status.

This advanced software, coupled with the EVASMC2 Genius Charger, provides EVA users with the latest battery information, including:

- Manufactured Date
- Serial Number
- Number of Cycles Used
- Average Time to Full Capacity
- Temperature
- Voltage
