

Make the most of your air supply hose and cool tube.

Add a Tychem hood for painting, too.

Use the same air supply hose and cool tubes utilized for your 88VX abrasive blasting respirator. Bullard CC20 Hood respirators offer many advantages in protection, comfort and value over traditional half-mask cartridge respirators.

Superior PROTECTION:

- 100X the protection of a half-mask cartridge respirator for applications with:
 - Isocyanates
 - Chromates
 - 2-part paints
 - Epoxy paints
- Protects eyes and face from overspray vs. typical half mask exposure
- Highest protection rated hoods in the industry
- Crush proof breathing tubes
- Dermal protection

Superior COMFORT:

- Accessories available to cool air by up to 30 degrees
- Hoods accommodate facial hair and eyewear
- Unrestricted breathing due to positive pressure
- More than 16 styles of hoods choose from
- No more cleaning up from overspray on face and hair

Superior VALUE:

- No fit testing required by OSHA
- No cartridge replacement costs
- No head socks to purchase
- Economical enough to be disposed; durable enough to be reused
- **Utilizes same air supply hose and cool tubes as 88VX abrasive blasting respirator**

Fresh Air Painting Respirators

Tychem® Hood Respirator Selection Chart

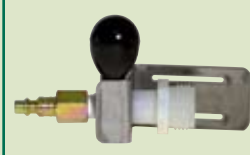

1. Choose Head Top

 <p>20TJR (Acetate Lens) 20TPR (Solvent Resistant Lens) Single Bib Hood Ratchet Suspension</p> 	 <p>20TICR (Acetate Lens) 20TPCR (Solvent Resistant Lens) Double Bib Hood Ratchet Suspension</p> 	 <p>20LFM (Medium) 20LFL (Large) Loose-Fitting Facepiece Sewn-in Suspension</p>
